

CGWFA Tour 2019

Advance Passenger Information (API)

Since April 2015, all UK ports and airports are required by the UK government to carry out Exit Checks to collect the passport or identity card details from every person leaving the country, at their point of departure, and pass this information to UK Border Force.

The following details will be required from you so please complete this form and return to me, or send the information by email, to enable me to register this information ahead of our journey.

Many thanks.

Dave
